

Edward Lubricants

Enduring Performance. Maximum Protection.

*Powering Your Fleet &
Earthmoving Equipment*

About Us

Edward Lubricants crafts high-performance, specialty oils and greases for demanding industries. Our innovative formulations ensure extended equipment life, reduced downtime, and reliable protection—even in the toughest commercial fleet and earthmoving environments. We are ISO 9001 and 14001 certified for quality, safety, and environmental stewardship.

Why Edward for Your Fleet & Earthmoving Equipment?

✓ **Extended Protection**

Advanced anti-wear, anti-corrosion, and thermal stability technology for longer service intervals.

✓ **Cost Savings**

Lower maintenance costs and increased asset uptime.

✓ **OEM Compatibility**

Meets or exceeds major OEM & industry specifications, including API, AGMA, and ISO standards.

✓ **Quality Assured**

All products manufactured to ISO 9001 / 14001 standards for reliability and environmental safety.

Fleet & Heavy-Duty Engine Oils

Product Name	SAE Grade	API Service	Features & Application Highlights
Edward Titan HDDEO 15W-40	15W-40	CK-4/CJ-4	Full synthetic blend, latest emissions (EGR/DPF/SCR/Euro VI), long drain; ideal for modern on/off-highway trucks, earthmovers, and heavy commercial vehicles
Edward Titan HDDEO 10W-40	10W-40	CK-4/CJ-4	Advanced protection for severe conditions and wide temperature swings; for mixed fleets and extreme climates
Edward Titan HDDEO 15W-40	15W-40	CI-4 Plus	Long drain engine oil for advanced fleet operations and high-efficiency vehicles (BS-4)
Edward Titan HDDEO 15W-40	15W-40	CI-4/CH-4	High viscosity formulation for older engines, legacy equipment, and high thermal stress use
Edward Titan Mono 40	SAE 40	CF-4/CF	Monograde for generators, construction, mining, and marine engines

All SKU lines are compatible with the latest emission control technologies (EGR, DPF, SCR).

Notes

Gear & Transmission Oils

Edward MaxGuard EP Series

SKU	SAE Grade	Description
Edward MaxGuard EP 90	SAE 90	Mineral-based EP gear oil for passenger cars and light trucks. Provides excellent anti-wear and rust protection.
Edward MaxGuard EP 80W-90	SAE 80W-90	Multipurpose seasonal EP gear oil ideal for moderate temperature ranges and all-season use.

Edward UltraShield MP Series (API GL-5)

SKU	SAE Grade	Description
Edward UltraShield MP 80W-90	SAE 80W-90	EP gear oil for multipurpose automotive use, high load & temperature tolerance.
Edward UltraShield MP 85W-140	SAE 85W-140	High-performance gear oil for heavy commercial vehicles and off-road equipment.

Advanced Greases

Edward Crest MP & EP Series

Product Variant	Description
Edward Crest MP 3	Multi-purpose (MP) lithium grease for general automotive and equipment lubrication.
Edward Crest EP 3, EP 2, EP 1, EP 0, EP 00	Extreme Pressure (EP) greases for high-load and shock conditions; available in multiple NLGI grades for tailored application—from heavy trucks to fine machinery.

Edward Regal Chassis Grease

- Delivers smooth, quiet performance and extended service intervals.

Hydraulic Oils

Edward Spectra Series

Product Name	ISO VG Grades	Key Features	Applications
Edward Spectra	32, 46, 68	Reliable, anti-wear, oxidation stability	General industry, mobile hydraulics
Edward Spectra AW	32, 46, 68	Advanced anti-wear, energy-efficient, low maintenance	Heavy equipment, plants, trucks
Edward Spectra AW Premium	32, 46, 68	Long-life, high cleanliness, premium filterability	Precision and automated systems
Edward Spectra HVI	32, 46, 68	High VI, all-climate, stable viscosity	Outdoor, mobile, and fluctuating-temp
Edward Spectra HVI Premium	32, 46, 68	Maximum temperature performance, extreme stability	Mining, construction, robotics

Notes

Industrial Gear Oils

Edward GearElite HD Series

SKU	Viscosity Grade (ISO VG)	Description
Edward GearElite HD 150	150	Extreme pressure industrial gear oil for moderate-load gearboxes
Edward GearElite HD 220	220	High-load gear protection and oxidation resistance for heavy machinery
Edward GearElite HD 320	320	Excellent wear and micropitting protection for industrial gearboxes
Edward GearElite HD 460	460	Heavy-duty gear oil for very high loads, shock-resistant
Edward GearElite HD 680	680	Maximum protection and film strength for harsh, severely loaded gear units

Edward GearElite WT Series (Water-Tolerant / High Performance)

SKU	Viscosity Grade (ISO VG)	Description
Edward GearElite WT 150	150	Water-tolerant gear oil with excellent rust protection in wet conditions
Edward GearElite WT 220	220	Resists water washout, protects industrial gearboxes in harsh environments
Edward GearElite WT 320	320	High-performance water-resistant formulation for continuous wet exposure
Edward GearElite WT 460	460	Superior corrosion and oxidation protection in damp, high-load conditions
Edward GearElite WT 680	680	Robust film strength and protection in challenging wet environments

Specialty Industrial Lubricants (For Earthmoving & Plant Operations)

Product Type	Typical Grades/Variants	Key Application	Major Features
SlideMaster Slideway Oils	32, 68, 220	CNC, Milling, Machine Tools	Stick-slip free, high load, coolant compatible
RockForce Rock Drill Oils	100, 150, 220	Mining, Construction, Pneumatic Tools	EP protection, rust and wear control
ReleasePro Mould Oils	Pure, Emulsified	Concrete/Plastic/Metal Formwork	Clean release, corrosion-resistant
ThermoGuard Heat Transfer	32, 46	Chem, Plastics, Food, Textile Plants	High-stability, thermal efficiency
RustX Dewater Fluids	Oil, Solvent, Wax	Storage/Export Metal Protection	Fast dewatering, strong rust prevention
ElectroSafe Electrical	Transformer, Silicone	Power Equip, Switchgear, Transformers	Dielectric strength, oxid. Stability
CutPro Cutting Oils	Neat, Soluble	Machining, Turning, Drilling	Cooling, lubricity, anti-weld
Forming/Grinding Oils	Stamping, Grinding, Draw	Metal Forming, Finishing	Tool & surface protection, cooling
QuenchMax Quenching Oils	Normal, Fast, Accelerated	Heat Treat, Forgings	Uniform cooling, oxidation stable
